

Industry: Hospitality
Use Case: Employee Training & Courses

Corinthia Hotels **trains their global staff** with SAP Litmos

Corinthia is a collection of hotels located predominantly in Europe, the Middle East, and Africa. Each Corinthia hotel is created as a tribute to local architecture and cultural traditions in some of the most exciting places in the world.

In addition to focusing on customer satisfaction, the company culture supports family values and positive encouragement among teams so that workers enjoy their jobs in an inspired yet warm-spirited fashion. They see training as vital in creating these excellent customer and employee experiences.

Approximately five years ago, the organization established a five-tier learning strategy to engage every level of the workforce in ongoing training. They chose SAP Litmos as the platform to support their strategy because of its ease-of-use, course library, and anytime-anywhere on any device capabilities.

“One of the reasons I chose SAP Litmos was this ability for our employees to grow now for the future. **This is a system that just keeps on giving,** which is fantastic for our people.”

Rachel Begbie
Learning, Development,
and Well-Being Director
