

Industry: Machinery
Use Case: Employee and Partner Training

Graco delivers learning to over **12,000 distributors** with SAP Litmos

Founded in 1926, Graco is a world leader in fluid handling systems and components. Graco Inc. supplies technology and expertise for the management of fluids in both industrial and commercial applications. It designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid materials.

Graco needs to train distributors all over the world at any time of day, and has more than 12,000 learners enrolled in Graco University on the SAP Litmos LMS. In the past, employees had to travel to a Graco location to start their training. Now, employees can start learning their first day on the job and the number of learners has more than doubled since starting with SAP Litmos.

“98% of our learners have told us that the training they get on Graco University helps them sell the product better.... **SAP Litmos has strived to make the easiest to use learning management system in the market**, and I think they’ve done a very good job in delivering that.”

Erick Reinikka
Product Training Manager at Graco
