SAP Litmos customers may include multiple sub-domains in a single subscription. Each sub-domain can be branded and customized, and one sub-domain can be promoted as the “master,” giving it the capacity to assign courses downstream.

**Master Account**

- Sub-Account 1
- Sub-Account 2
- Sub-Accounts can expand indefinitely

**Use cases**

- Drive learning across your entire organization through departmental based sub-accounts.
- Configure separate partner portals to drive.
- Enable your channels through individually branded sub-accounts containing specific content.
- Easily manage your re-seller environment through one master account.

**Key benefits**

- Multi-Account Admin Access through SSO
- Cross-Account Visibility
- Segmented Gamification
- Multi-Account Branding
- Unique Access URLs
- Centralized Course Management and Distribution
