

Industry: Non-profit
Use Case: Employee Training, Customer Training

OneOC accelerates nonprofit success using SAP Litmos

With volunteer, training, consulting and business services, OneOC helps Orange County's nonprofits become as effective and efficient as they are passionate about their missions. Their services are fully integrated, and strengthened through partnership with other local service providers. Together, they work to accelerate the success of Orange County nonprofits, enabling them to reach their full potential.

Previously they never used online learning, which made providing training to their clients very difficult. People had told them for years to create training online, so they finally pulled the trigger and selected SAP Litmos as their learning management system.

By using SAP Litmos, they have been able to increase the number of people they can serve, and they have now had over 2,000 users, which comprises of around 350 unique nonprofits from Orange County and up the state, which was a big win for their organization.

“SAP Litmos is the hub for **anyone who wants to go through training** at OneOC.”

Victoria Torres
Director of Organizational Development
